Hi Rick

Great to meet you yesterday and thanks for the intro.

George and David,

I would love to sit down and talk about CA UIC implementation. Clean Water Action, as you may know has been working on Safe Drinking Water Act issues for much of our history. Our California office has been one of the enviro groups engaging on oil and gas issues in Sacramento and Kern County, and we have been engaging with DOGGR in their development of fracking regs and potentially with their update of the UIC Class II program.

Sounds like maybe waiting until David is back in town might make sense. I'd be happy to come to your office in the city if you are open to meeting. If so, can you suggest a few times and dates?

Thanks

Andrew Grinberg | Oil and Gas Program Manager | p: 415.369.9172 | c: 415.298.8314

Subject: Region 9 UIC Program Contacts

Good afternoon Andrew,

Thanks for meeting with Geri Gilbert of EPA CID and myself yesterday to discuss energy extraction, regulatory exemptions and current efforts to protect water quality in

this arena. You mentioned that you're interested in speaking with R9 groundwater / UIC staff regarding Senate Bill 4 and its implementation. I've included two contacts below who are very knowledgeable about ground water and underground injection control:

George Robin, Engineer

EPA R9, UIC

(415) 972-3532

Robin.george@epa.gov

David Albright, Manager

EPA R9 Ground Water Office

(415) 972-3971

Albright.david@epa.gov

I believe David will be out of the office until August 11th.

Feel free to give me a call in the future if you would like to discuss or have questions related to EPA & State Industrial Stormwater and Construction Stormwater Permits, Wetlands Permitting and/or RCRA.

Thank you,

-Rick
